REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed

in patent number 6,373,868, granted April 16, 2002, and for which a

reissue patent is sought on the invention entitled _____

Single-mode operation and frequency conversions for diode-pumped solid-state lasers

the specification of which

☒ is attached hereto.☐ was filed on _____ as reissue application number _____ / _____
and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

This reissue is a broadening reissue. The specification and drawings are kept same as that as before. The amendment for claims is simple, only a limitation in Claim 1 has been removed. Claim 1 is the only independent claim in the patent.

In the original first approach of Claim 1, it is not necessary to stipulate the formation of wavelength selectivity in detail to limit its coverage. Accordingly, those specified members for said formation, which are recited in a Markush group, have been removed from Claim 1 and then become a succeeding dependent claim, i.e., Claim 2. Such an amendment also makes much clearer for the claimed subject matter without confusion.
